National Prescribing Service (NPS) Application

Logon to:  [http://npsprescribe.lamsinternational.com](http://npsprescribe.lamsinternational.com)

Click on the ‘Sign up here’ link below the login box.

Fill in the first six fields as requested.

Choose ‘University of Queensland’ from the Institution drop down box.

Choose the course +key that is relevant.

There are a series of animated tutorials on how to use the modules which you can access from the welcome page.

For universities with students starting semester 1 2010 – can you all please advise which groups you need set up (Name) and approximate numbers of students. This isn’t essential but helps us set the appropriate group size. I will then e-mail you the self sign in details for your learners. For those starting semester 2 2010, I look forward to hearing from you during the year.

The modules available by February 2010 include:

- COPD
- Peptic ulceration with H. pylori
- Post-operative pain
- Narcotic analgesic dependency
